To the Citizens of Community School District 303:

As part of its efforts to enhance educational opportunities for the students of CUSD #303, the Board of Directors has established as a priority the Project Grant Program. This program is designed to encourage the development and implementation of creative new curricular innovations through provision of necessary funding not otherwise available.

The Foundation has been gratified by the number and quality of the grant applications it has received this year. We are happy to be able to support the following projects, as approved at a special Board Meeting of The Greater St. Charles Education Foundation on May 17, 2000.
